City of Cortland
Per-Capita 2022 Budget Benchmarks

Source: Empire Center for Public Policy
 Benchmarking New York

City of Cortland Population 2020 Census 18696

The use of Benchmarks is to provide subjective context to the City's Budget. Budgetary benchmarks address the reasonableness of assumptions and estimates used in the preparation of a financial blueprint. They are not intended and nor should they be used to objectively gauge if any one municipality is performing or utilizing available resources better or worse than another. Peer cities share some characteristics in common, but often only population size. Cities each is unique with individual priorities, operate within different economic demographics, faced with different limitations and strive to satisfy the unique values and expectations of their residents.
