She said code department employees are very knowledgeable and experienced, and that the two additional employees resulting from the restructuring will help. She stated that there is much more rental property and the city needs a code office that can stay on top of issues and set higher expectations for the city’s appearance. She added that even with the larger department there will be a savings of \$113,889. Council Member Silliman noted that she and Council Member Schutt had worked out the restructuring arrangement with the fire department chief, deputy chief and battalion chief.

Council Member Carpenter asked who will provide the additional staffing for the code office. Chief Friedman replied that it will be staffed by junior firefighters.

**Discussion Items**i. Redistricting committee

Mayor Steve the county seems to be leaning towards having 7 county legislators within the city, and that he would like to find a way to keep the same boundaries for city wards. He said he would continue to monitor the county's progress and keep the council informed.

ii. Monthly Common Council meetings and city Charter change

Mayor Steve said the possibility of the common council meeting once a month rather than twice a month had been discussed at a recent department head meeting, and he wanted to give council members an opportunity to discuss the idea. He indicated that the change would give more time for council members to review documents, and could be supported by the process of having council members serve as departmental liaisons. He asked the council to weigh the pros and cons.

Council Member Lane said she supports meeting twice a month in order to be better able to address constituent concerns.

Council Member Schutt said the mayor does a good job of providing council members with documents and information and that he could support once a month meetings.

Council Member Beckwith asked if a public hearing would be held in advance of any change. Mayor Steve responded that a public hearing would be held. Mr. Beckwith noted that if such a change was made that special meeting could be called if needed. He further stated that in making such a decision the council should keep in mind the upcoming Main Street construction and the need to address complaints. He suggested that a decision to change meetings to once a month be put off until after the scheduled construction activity. Mayor Steve said that he sees the point of Mr. Beckwith's comments.

Council Member Thompson asked if the liaison system would be continued if a change were made. The Mayor said it would. Council Member Schutt said he thinks the liaison system is beneficial.

Council Member Silliman said she would like to think about the issue further, but that she thinks it's good to be consistent with the meeting schedule.

The mayor suggested that a compromise approach may be to continue twice a month meetings with the understanding that a scheduled meeting could be suspended.

A motion was made by Mr. Beckwith to suspend the meeting scheduled for March 1, 2022 and to hold the next meeting at 6:00 p.m. on March 15, 2022 at 6:00 at City Hall. The motion was seconded by Mr. Carpenter and approved by a vote of 8-0.

**Adjournment**

The meeting was adjourned at 6:59 p.m. on motion of Council Member Beckwith, seconded by Council Member Schutt, and approved by a vote of 8-0.
